

Price list valid since 1st of July 2025 (All price net in PLN)

The basis for charging for a shipment is the weight declared by the shipper on the AWB in the "Gross weight" field for each AWB.

Charge according to the base rates assigned to the type of shipment.

For special shipments, charge according to the declared SHC code. In the case of several SHC codes, the highest rate will be adopted; percentage rates add up.

IMPORT

LEGEND

	Handling service for import shipment includes: <ul style="list-style-type: none"> • warehouse service • handling of shipping documentation • handling of PZC customs documentation (document ZC-299) provided electronically or via the handling agent system • loading of palletized goods adapted to loading from the ramp by electric forklift. 	
1	The service is limited to loading one truck with a capacity of 24 tons with an estimated average loading time of 1.5 hours. The maximum weight of one pallet for loading is 2 tons. The loading service should be ordered during the registration of the shipment for release.	

	<p>The service is provided from the moment the delivery vehicle is placed under the loading ramp. Any other type of loading payable according to the rates indicated in the price list 7.1. If one AWB is loaded onto more than one vehicle, the loading is calculated for the entire AWB in accordance with the price list. LSAS reserves the right to extend the loading time above the estimated average time of completion. In the event of an extension of the loading time, the customer is not entitled to any claim against LSAS.</p>
2	<p>Transit service in Import "T1 procedure" includes:</p> <ul style="list-style-type: none"> • Checking the car or preparing one package for sealing and closing customs assumption (SEALING),(we count subsequent packages according to the price list, point 8.3.5 and 8.3.6) • Assistance of LSAS Staff in sealing based on the received order with the LRN number • Printing out the required documentation and handing it over to the driver (up to 20 copies included in the price of the service, the next ones are counted according to the price list, point 8.4.5) • Sending a scan of documents related to the receipt of the shipment (CMR, POD) • Manual loading included in the price of the service up to a weight of 300 kg. The weight of one package cannot exceed 25 kg. • Mechanical loading included in the price of the service, limited to 1 truck - max 24 tons, in accordance with the rules described in reference 1 <p>The service begins after the driver reports to the Customer Service Office and the LSAS Staff verifies the suitability of the vehicle for loading/sealing</p>
3	<p>Handling service for an export shipment includes:</p> <ul style="list-style-type: none"> • warehouse service with shipment security control (the standard time of security control will be carried out within 24 hours from the moment of delivery of the goods with complete documentation. However, during times of increased traffic, this time may be extended.) • handling of transport documentation for shipments with RFC status (RFC status - "ready for carriage" - shipment marked according to the IATA standard, measured and weighed, with AWB letter and commercial documents attached) • sending the IE507/IE007 message to the Customs Office • unloading of palletized goods adapted to unloading from the ramp by forklift. <p>The service is provided when the car can be unloaded using the ramp and is limited to unloading one truck with a capacity of up to 24 tons with an average estimated unloading time of up to 1.5 hours. The maximum weight of one pallet for unloading is 2 tons. The unloading service should be ordered during the registration of the shipment for shipment. The service is provided from the moment the delivery truck is placed at the unloading ramp. Any other type of unloading is payable according to the rates indicated in the price list p 7.1.2. LSAS reserves the right to extend the unloading time beyond the estimated average delivery time. If the unloading time is extended, the customer is not entitled to any claim against LSAS.</p> <ul style="list-style-type: none"> • any other intervention will be counted as staff assistance point 8.9 of the price list
4	<p>Service ALL IN for shipments in EXPORT (Status NRFC – A „non ready for carriage“) covers:</p> <ul style="list-style-type: none"> • handling of documentation for shipments with status NRFC-A; • weighing and measuring the shipment, printing the AWB consignment note electronically provided by the sender; printing business documents (up to 20 copies); printing and labelling with MAWB label electronically delivered; • closing of the T1 transit remittance at the Customs Office; sending a message IE507/IE007 (after receiving an MRN number); • mechanical unloading described in point 3 ; • transfer of freight along with documentation for handling service – according to point 4 of Pricelist. <p>Warning: The service order should be sent one day before the planned delivery, not later than 24 hours. The notification should contain full information on the method of identification and handling of the shipment. The condition for the service is the confirmation of LSAS about the acceptance of the service for execution sent electronically. LSAS reserves the right to refuse to handle the shipment without giving a reason. In the event of refusal to handle the shipment, the customer will not be entitled to any claims against LSAS.</p>
5	<p>ALL IN Service for shipments in EXPORT (Status NRFC – B „non ready for carriage“) covers:</p> <ul style="list-style-type: none"> • services described in point 4 of Legend; • Labelling with HAWB labels, handling materials for securing and fixing the shipment (withpu EURO pallet). <p>Warning: The service order should be sent one day before the planned delivery, not later than 24 hours. The notification should contain full information on the method of identification and handling of the shipment. The condition for the service is the confirmation of LSAS about the acceptance of the service for execution sent electronically. LSAS reserves the right to refuse to handle the shipment without giving a reason. In the event of refusal to handle the shipment, the customer will not be entitled to any claims against LSAS.</p>
6	<p>The Recognized Location is dedicated to presenting goods for export and handling export customs formalities for goods serviced by LSAS, prior to the security check of the shipment, conducted at the LSAS Cargo Terminal.</p> <p>In case of the need to withdraw the shipment from the Recognized Export Location, there is need to contact the Customs and Tax Office to request written consent for the withdrawal of the shipment from customs supervision (consent via email is also acceptable).</p>
